Eastern Kentucky University is an Equal Opportunity/Affirmative Action Employer and Educational Institution
WHAT IS THE PSYCHOLOGY CLINIC?
The Psychology Clinic is an outpatient behavioral health agency operated by the Department of Psychology at Eastern Kentucky University.

WHO PROVIDES THE SERVICES?
Services are provided by individuals working on graduate degrees in clinical or school psychology. All clinicians have received specialized graduate training and are closely supervised by licensed members of the clinical and school psychology faculty.

WHO CAN USE THE CLINIC?
The Psychology Clinic is open to children, adults, and families living in Richmond and surrounding Central and Eastern Kentucky communities, including EKU faculty and staff. There are no eligibility requirements for applying to the clinic. Because it is a training facility with a limited number of staff, the Clinic reserves the right to decide which potential clients can best be served at any given time.

WHAT ARE THE FEES?
Fees for services are set on a sliding scale from $6.00 to $50.00 for each visit. They are based on a person's income, number of dependents, and ability to pay. The Clinic does not accept insurance payments, but sets fees that will not be a burden to the client. Fees for assessment services are also based on a sliding scale.

HOW DO I APPLY FOR SERVICES AT THE CLINIC?
To schedule an initial appointment, call the Clinic at 859-622-2356. (Please leave a message if no answer.) More information available online: www.psychology.eku.edu

WHAT SERVICES DOES THE CLINIC OFFER?
The Clinic offers a wide range of outpatient psychological services to children, adolescents, adults, couples, and families. The clinic also provides consultation and training to other professionals and the community. Services include:

- consultation to other professionals on suicide-focused treatment, such as the Collaborative Assessment and Management of Suicidality (CAMS)
- providing evaluation and individual psychotherapy for adults with depression, anxiety, and trauma (e.g. sexual abuse, combat trauma)
- individual and group therapy for children, adolescents, and adults for behavioral, social, and emotional problems
- individual therapy for children and adolescents for school-related problems
- psychological testing for children, adolescents, and adults
- consultation with parents and teachers regarding school-related problems
- parent consultation and counseling
- Autism Spectrum Disorder psychological evaluation, consultation, and intervention
- counseling and psychoeducational therapy for individuals with autism spectrum disorders or developmental disabilities
- therapeutic groups for individuals on the autism spectrum and their families
- intellectual assessment
- academic assessment
- family therapy
- marital/relationship therapy
- stress management
- grief/trauma counseling
- counseling and psychoeducational therapy (trauma-informed, skill-based, family-centered prevention/ intervention) for military and veteran families
- therapeutic groups for military and veteran families
